

STEAM BOILER

ART. NO. 550000

GENERAL

-  The KEOFITT STEAM BOILER is a portable steam source that offers the ability to steam your KEOFITT sampling valve where steam is otherwise unavailable. All you need is water and the appropriate gas.
-  To be used with all steam sterilizable sampling valves.
-  Gas is NOT included!
-  Incl. hose with quick release tube fittings, 0.5 m (art. no. 550002).
-  CAUTION! Open flame, it is recommended to use gloves during the sterilising process as both Steam Boiler, fittings and sampling valve become hot during the process
